Limitations on activities prior to clearance - 58.22

The recipient may not commit or expend non-HUD funds on the activity prior to such approval if the activity would have an adverse environmental impact or limit the choice of reasonable alternatives

Mitigation

Explosive or Flammable

Using Environmental Assessment to Move Towards Sustainability
A Course Handbook

Environmental responsibilities under NEPA and other authorities have been delegated by 24 CFR 58 to local governments for many HUD programs, such as CDBG, HOME, NSP, TCAP, subsidized and public housing. The assessment process offers an opportunity to promote sustainability in project design & implementation. This course limits class size and uses interactive exercises to facilitate individual instruction. It also features many expert guest speakers.

To view agenda & register on line go to:
