features

4 WISDOM ON TEETH: A Growing Focus on Dental Care Needs

Poor oral health has been called a “silent epidemic,” with disparities and access problems calling for more attention from public health.

8 ANNE RIMOIN: Bringing Emerging Diseases Above the Radar

She is working with the Congolese to build a disease surveillance system that has already revealed the surprisingly dramatic growth of human monkeypox.

A BROADER VIEW OF HEALTH: Policies in All Sectors Make a Difference

10

As momentum builds for considering the public health effects of decisions outside health's traditional purview, SPH faculty are leading the way.

HIGHER EDUCATION: New Strategies for Promoting Health

16

With the one-size-fits-all approach a distant memory, efforts to change health behaviors are relying on better-targeted messages delivered in proactive and innovative ways.

in every issue

23 RESEARCH

Monkeypox rising in Africa...children not getting dental care...insurance inequities for same-sex couples...dangerous nanoparticles...home kitchens not making grade...centralized health care fares well.
