Community Health Sciences

Olivia Ross
President, Public Health Student Association

Christopher Mardesich, J.D., M.P.H. '98
President, Alumni Association

features

4 Alumni Hall of Fame: the 2007 Inductees

6 Emerging Infectious Diseases

Developing better ways to detect pathogens before they wreak havoc could be the key to staving off the next pandemic. The school is taking a leadership role in a coordinated effort.

Hilary Godwin: Preventing Children from Being Lead Astray

12

Her molecular studies have shown how exposure to the metal can produce cognitive deficits in children. As a newly recruited public health faculty member, she intends to work with communities to prevent these toxic effects.

14

Childhood Asthma

Missed school. Hospitalizations. Emotional distress and physical discomfort. SPH faculty, students and alumni tackle the reasons for asthma's rise – and the disproportionate burden carried by certain communities.

Eliminating Health Disparities

20

As befits its title, the Center to Eliminate Health Disparities doesn't stop at identifying problems; working with the affected communities, it intends to get rid of them.

ON THE COVER

Once thought to be a shrinking threat, infectious agents are now a critical global health concern. Major efforts are afoot to improve the ability to predict and prevent emerging diseases.
