

# TROUBLED WATERS

*Science, Policy and the Fight to Preserve Our Natural Resources*

Jeff Luck is among SPH faculty and alumni who are using informatics to change the way hospitals, health departments and the public use health information.

Angie Otiniano and her fellow members of Students of Color for Public Health work toward effecting positive change for diverse populations.

As a physician in Kenya, Charles Otieno saw deaths emergency services could have prevented. With his SPH education, he plans to change that.
