

## Indirect Cost Explanation

Please check the appropriate box below and explain as indicated in the appropriate text box.

- Off campus IDC rate (26% MTDC) is applicable (Preponderance of salary costs for the proposed activities must be incurred at an off campus site to be considered for the off campus IDC rate. Please check with OCGA representative, if unsure that this rate applies).

Please indicate off campus space arrangements:

- Sponsor Policy sets cost rate different from current negotiated indirect cost rate. In order for OCGA to process a request for a waiver there must be an across the board, formal, written, consistent, published sponsor policy limiting indirect cost recovery. Please include a copy of this policy with the proposal.

Please explain further:

- Other Sponsored Activities rate (35% MTDC on campus/26% MTDC off campus) is applicable. (To qualify for this rate the proposal must not be research or teaching related and must be approved as a qualifying activity by the School of Public Health Deans Office).

Please explain further:

\*\*\*\*\*If none of the above applies, the initial proposal should always request full indirect cost recovery at the appropriate rate. Please contact an OCGA representative for guidance.

\*\*\*\*\*Indirect cost rate (IDC) is also referred to as facilities & administration rate (F&A) and overhead.
