The UCLA School of Public Health is conducting a national/international search for a Chair of its Department of Environmental Health Sciences (http://www.ph.ucla.edu/ehs/). The Department includes programs in air and water quality, occupational health, environmental biology, environmental management and policy, industrial hygiene, environmental chemistry, and toxicology. The MS, MPH, and PhD degrees are offered in Environmental Health Science. The Department also houses two interdisciplinary graduate programs, in Environmental Sciences and Engineering (DEnv) and Molecular Toxicology (PhD) as well as six center grants, and is developing a Center for Environmental Genomics. The School of Public Health is in direct proximity to the Schools of Medicine, Dentistry, and Nursing. Opportunities for multidisciplinary collaboration are abundant and active. The Department currently includes 10 full-time tenure-track faculty in addition to part-time faculty.

Successful candidates must have demonstrated expertise in a department-related discipline and outstanding research and leadership skills. Faculty appointment level and salary will be determined based on the candidate’s experience and qualifications.

Please send a CV and letter of interest no later than April 1, 2002 to:

Gail Harrison, PhD
